

Sustainability Policy

Sian Weatherhead Photography

Our Commitment

At Sian Weatherhead Photography, I recognise the importance of protecting the environment and operating my business responsibly. As a wedding and family photographer, I am committed to minimising my environmental impact while continuing to provide exceptional service to my clients.

Environmental Commitments

- Reduce unnecessary travel where possible by carefully planning journeys and combining appointments.
- Conduct client consultations online where appropriate to reduce travel emissions.
- Use digital galleries and online communication to minimise paper usage.
- Source products and albums from suppliers who share environmentally responsible practices where possible.
- Recycle packaging and office materials wherever facilities allow.
- Reduce energy consumption through efficient use of equipment and technology.
- Regularly review business practices and identify opportunities to reduce waste and carbon emissions.

Social Responsibility

I am committed to treating all clients, suppliers and partners fairly and respectfully, supporting local businesses where possible, and operating an inclusive and welcoming business for all couples and families.

Measuring Environmental Impact

I will review my business emissions annually using recognised tools and use the findings to identify opportunities for improvement and carbon reduction.

Review

This policy will be reviewed annually. Last Reviewed: June 2026
